MEMORANDUM

To: **Public Schools District Supervisors
ESP/School Heads
Districts Reading Coordinator/Focal
Teachers**

From: **The Office of the Schools Division Superintendent**

Subject: **Analysis and Findings of the Posttest Results of Philippine Informal Reading Inventory (Phil-IRI) of English Both Oral and Silent Reading**

Date: **July 24, 2018**

1. This is to inform you about the analysis and findings of the consolidated district English Phil-IRI reports in both oral and silent reading (posttest) from grades II to VI, to wit:

Analysis:

In **oral reading**, a total of 105,608 pupils were tested from grades II to VI of the entire division, 1,339 (1.27%) of them are non-readers. There is a difference of 3,205 against the pre-test result which means that 70.53% of the non-readers has become frustration readers at the end of the school year.

Still in **oral reading posttest** that of the 105,608 pupils were tested from grades II to VI of the entire division, 22,327 (21.14%) is on frustration level, 46,474 (44.01%) is on instructional level, and 35,891 (33.99%) is on independent level.

In **silent reading posttest**, of the 10,611 pupils tested, 1,145 (1.09%) belongs to non-reader, 21,941 (22.85%) is on frustration level, 46,126 (43.68%) is instructional and 36,620 (34.67%) is on independent level.

Findings:

- Of the 35 districts, only Tampilisan has zero (0) frustration level of readers in both oral and silent reading.
- Districts with zero (0) non-reader in oral reading posttest are: S. Osmeña I, Ponot, Siayan, Sirawai, and Tampilisan.
- Districts with zero (0) non-reader in silent reading posttest are: S. Osmeña I, Ponot, Siayan, Sirawai, Kalawit and Tampilisan.
- Kalawit district has 177 non-readers in oral reading English posttest while zero (0) non-reader in silent reading.
- Sibuco district's enrolment during the pre-test was 5,649 while in the posttest it went down to 4991, thus, their enrolment decreased to 658 at the end of the school year.
- Of the 35 districts, only 6 have shown the same total number of pupils tested against the total enrolment, the other 39 districts have neither increased nor decreased their enrolment at the end of the school year.

- Pre-test results cannot be compared against the posttest considering the differences of its enrolment. This signifies that some of the pupils tested in the pre-test may not be the same pupils tested in the posttest or may not even took the posttest.

Recommendations:

Result is yet subject for validation and so therefore this office shall conduct schools visitation anytime of the school days to validate the authenticity and validity of the reports submitted to this office.

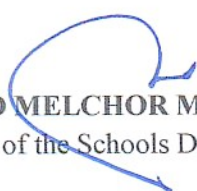

Revised Phil-IRI assessment tool must be used starting SY 2018 – 2019 and onwards.

Follow diligently the processes on the administration of the Phil-IRI following the Philippine Informal Reading Inventory Manual 2018.

Intensify the reading interventions to those identified under frustration and apply the pull out system for those identified non-readers.

Make reading activities a daily routine that is more interesting and interactive.

2. Attached is the said consolidated grade level and overall English Phil-IRI results in both silent and oral reading.
3. This office recognizes the efforts of those District Reading Coordinators who are prompt in complying and submitting the Phil-IRI report.
4. Widest dissemination of this memorandum to all concerned is desired for their information and guidance.

PEDRO MELCHOR M. NATIVIDAD, CSEE
Office of the Schools Division Superintendent
