Dear Usec. Mateo,

SEAMEO INNOTECH has been implementing online courses in the last 11 years. We are pleased to inform you that consistent with our mandate to incubate educational innovations, we are already into the development of Massive Open Online Courses (MOOCs). We are set to implement our second MOOC entitled, **Teach On: Keeping the Passion Alive**. This online course aims to inspire, rekindle and build the capacity of teachers on passion for education.

The course will begin on January 29, 2018 and pre-registration is now open through this link: <http://bit.ly/teachonreg>. This course is being offered for free.

The course allows more flexibility in completing the course activities. It is estimated that a learner will take 4 hours per week for approximately 8 weeks to complete the course. All discussions are asynchronous and thus, learners have more control over the schedule of their participation.

The course delivery platform used for this course is the Knowledge Education and Exchange Platform (KEEP) maintained by the Chinese University of Hong Kong (CUHK). We have attached the step-by-step guide on how to create an account in KEEP.

May we request you to promote the course to your network of teachers together with the information on how to pre-register. We hope that educators will be able to take advantage of this unique opportunity for professional development.

Should you have any question, please feel free to contact us through our MOOC Project Manager, Ms. Joan Atienza at +63 2 9247681 loc 195, by email at mooc@seameo-innotech.org or through our Facebook page, <https://www.facebook.com/teachoninnotechmooc>.

Very truly yours,

RAMON C. BACANI
Director
